RESUME PROFILE

- I am a very ambitious person, I love to learn new things and spend a lot of time researching the latest technologies, especially in the field of web development and artificial intelligence.
- My friends describe me as boring because I search a lot in the details of things.
- I like to play sports in my spare time, especially boxing, and I participated in many national fights.

KEY ACHIEVEMENTS

What are you most proud of?

I analyzed a store project and modeled it using UML and database design, and finally I coded the front and back end, its features:

- _ Customize the authentication process
- _ Adding the electronic payment service using Stripe
- _ Basic testing processes and I am working on developing them further
- _ Adding a shopping cart by sessions

EDUCATION
